

Kaiser Partner wins two awards

Kaiser Partner is extremely pleased to have won two prestigious awards in quick succession. At the “World Finance Banking Awards” Kaiser Partner was named “Best Private Bank in Liechtenstein” for the third time. And last week at the Milan Stock Exchange it received the “Wealth Management Firm of the Year” prize for sustainable investment in Europe.

Vaduz, October 16, 2015 – Respected British magazine “World Finance” named Kaiser Partner as the best private bank in Liechtenstein for the third time in a row. Commenting on the 2015 prize, the independent experts on the jury highlighted the private bank’s “entrepreneurial spirit and sustainable approach”. The victorious Liechtenstein firm is in good company: other prize-winners included the private bank Pictet in Switzerland and Coutts in England.

Introducing this year’s awards, the experts at “World Finance” also emphasized how important technological developments were to the industry: “Thanks to technological progress and the ubiquitous use of advanced computer technology, private banks can reach their customers more easily.”

Last Friday at the Milan Stock Exchange, at a CEO summit hosted by the IAIR, Fritz Kaiser also received the award for “Wealth Management Firm of the Year” for sustainable investment in Europe.

Fritz Kaiser, Chairman of Kaiser Partner, said the following about the two awards: “Our world has become complex, and many things change very quickly and very drastically. As a learning organization, we are constantly developing new insights and formulas to help navigate wealth towards a sustainable future. We are very pleased that our efforts have been recognized.”
