### Good results for Kaiser Partner Privatbank AG in 2016

Vaduz, April 27, 2017 - Client assets under management went up 11% to CHF 2.5 billion. Profit improved by 14% to CHF 2.4 million. A concentration on selected markets, a clearly defined service portfolio and more time to give clients personal advice and service contributed greatly to this success.

The course set by Kaiser Partner Privatbank AG has been vindicated by its positive results for 2016. Closeness to clients and the Responsible Investing philosophy are paying off. In uncertain times like these, our approach to investment becomes particularly interesting to wealthy individuals, families and institutional investors.

The successful switch to the Avaloq banking system was a milestone within the company. With the aid of new digital technologies, the bank is now in a position to offer its services to customers in an increasingly simplified way.
