

SecureSafe Brief information

Highly secure online storage with password manager

SecureSafe is an award-winning online storage solution for companies and individuals alike. The cloud safe simplifies online file sharing and protects documents and passwords, offering a level of utmost security.

SecureSafe is a unique solution thanks to the use of double encryption, triple data redundancy for each and every file and zero knowledge architecture, thus offering the highest level of privacy protection.

Product facts

- Highly secure:
Not accessible by 3rd parties or Kaiser Partner Privatbank AG
- Digital safe:
Valuable documents (passports, important contracts) and passwords
- Data inheritance:
Define up to three beneficiaries (such as family members and life partners) allowing them to access important passwords or files in case you are involved in an emergency or in the event of unexpected fatality. The transfer will happen automatically and securely.

Benefits for you as a client

- Paid by Kaiser Partner Privatbank AG for you as long as you are a client or authorised person
