

Kaiser Partner Privatbank Successfully Continues Its Path of Natural Growth

Kaiser Partner Privatbank | 2021 Semiannual Financial Statement

The trajectory of growth that began in 2016 was briefly weakened due to the 2020 economic slump caused by the global coronavirus pandemic. Fortunately, the signs are clearly indicating growth again in 2021. This was not least because Kaiser Partner Privatbank consistently put its focus on protecting employees, clients, and their assets during the crisis. However, we did more than just damage control: we identified and seized opportunities for our employees and customers, consolidating our stakeholder relationships along the way.

This can also be seen in the form of increasing customer confidence in 2021: Despite volatile markets, assets under management rose from CHF 4.6 billion to CHF 5.4 billion, an increase of 18%. Clients entrusted us with net new assets of CHF 316 million. In asset management, we surpassed our direct competitors in terms of performance this year, and, as in the past year, we were able to hold our own in the top third of our peer group consisting of leading banks in Central Europe. This consistency underscores our competence in asset management even in difficult times.

Compared to the reporting year of 2020, the company was able to increase gross profit by CHF 1.1 million to CHF 14.6 million (a rise of 8%), and profit could be increased significantly to CHF 2.1 million

(a rise of 69%). Commission and service income contributed CHF 8.8 million to the positive operating income, an increase of 7%. Income from the financial business grew strongly, increasing by 42% to CHF 3.8 million. Under the pressure of the negative interest rate environment as well as interest rate cuts by the national banks, net interest income fell by 21% to CHF 1.9 million. Our systematic pursuit of a sustainable growth strategy resulted in unchanged costs of CHF 1.0.3 million. We at Kaiser Partner Privatbank see the fundamental upheaval that is emerging in the banking sector and are making investments in the far-reaching transformation of our business model. By signing the Principles for Responsible Banking, Kaiser Partner Privatbank has declared its commitment to sustainability, both as a company and in terms of its services.

With the same level of commitment, Kaiser Partner Privatbank is striving to use its services to foster the prosperity of its clients and business partners. The latest key performance indicators reflect ongoing solid earnings for Kaiser Partner Privatbank. They show that the conveyed corporate values and the holistic wealth management model hold a strong attraction. This can be seen in the waiving of retrocessions and the commitment to tax conformity, for example. The philosophy of the company has also been demonstrably effective in efforts related to the protection of privacy and in the area of responsible investing.
