

## Kaiser Partner Privatbank records best half-year result to date

Kaiser Partner Privatbank | 2022 Semiannual Financial Statement

After our growth trajectory briefly weakened in the "COVID-19 year" of 2020, Kaiser Partner Privatbank was able to return to the success of previous years starting in 2021. In the first half of 2022, we even reported the best half-year result in the history of our bank. The result was all the more gratifying due to the fact that it was achieved in one of the most challenging situations of the most recent decade, in which the ongoing consequences of the pandemic, geopolitical uncertainties and rising inflation led to an economic slowdown and correspondingly volatile markets. If nothing else, our strong growth in such an environment confirms that both existing and new clients continue to place their trust in us even in times of difficulty.

For the second half of 2022, we expect on the one hand a persistently volatile market environment, threatening to burden the earnings side of the services and commission business. This is not least due to the accentuating Taiwan conflict, which will considerably aggravate the existing geopolitical uncertainty and (in particular due to the global dependence on semiconductor products from East Asia) have potentially serious effects on global supply chains. This

could have serious adverse effects on the already negative overall economic development with corresponding repercussions on the financial markets.

On the other hand, we expect initial positive effects on our interest business as a result of the central banks' interest rate policy changes in response to inflation. Despite continuing uncertainties, we are confident that we will be able to repeat the strong half-year result in the second half of the year. If the incipient rise in interest rates proves to be lasting, we also see considerable opportunities for our interest business. This is not least due to our strong liquidity situation, particularly in 2023 and beyond, meaning that there is additional potential for earnings growth.

Irrespective of all of this, Kaiser Partner Privatbank is also exerting considerable effort in the improvement of its range of services for both existing and new clients. Our focus for the coming few years is particularly on offering innovative solutions to meet the wide-ranging needs of entrepreneurial families even better so that we can further accelerate our growth in the years to come.
